FORM ONE MID TERM EXAM

MARCH, 2026

PHYSICS

TIME: 2:00HRS

Student's Name.

Instructions:

-Answer all questions in the space provided.

-Show your work clearly to merit marks

-All an authorized materials are not allowed in the examination room

GEPAM science hub

WhatsApp 0748978398

1. Multiple Choices. Choose the correct answer for each question and write it on the answer grid provided.

i. Matter is best defined as:

- a) Study of living things b) Anything with weight and occupy space
c) Study of rocks d) Physical phenomenal

ii. _____ is a personal who study physics.

- a) Physicos b) Optics c) Botanist d) Physicist

iii. Which of the following stand as the SI unit of Volume?

- a) Centimeter b) Newton c) Watt d) Pascal

iv. Which instrument among the following is used to measure unknown temperature of the body?

- a) Thermometer b) Beam balance c) Stopwatch d) Voltmeter

v. The force that pulls objects towards the center of the Earth is:

- a) Friction b) Magnetism c) Gravity d) Tension

vi. Which of the following is not complete part of the measurement?

- a) cm b) 10 Second c) 100 Kg d) 0.5 N

vii. The Standard unit for international used for mass is:

- a) Kilogram b) Hour c) Newton d) Joule

viii. Which principle explains why ships float?

- a) Newton's First Law b) Archimedes' Principle c) Pascal's Law d) Hooke's Law

ix. Which of the following is NOT fundamental physical quantity?

- a) Length b) Mass c) Energy d) Time

x. The physics of space and terrestrial bodies is called:

- a) Optics b) Acoustics c) Thermodynamics d) Astronomy

I	II	III	IV	V	VI	VII	VIII	IX	X

2. Matching Items question. Match items in List A with the correct answer in List B. Put your answer on grid provided.

List A	List B
i. Micrometer Screw Gauge	a) 0.01 cm
ii. Ruler	b) 100kg
iii. Vernier caliper	c) 0.001 cm
iv. Beam balance	d) 10 N
v. Stopwatch	e) 60 s
	f) 30 cm, 50 cm or 100 cm

List A	I	II	III	IV	V
List B					

SECTION B (70 Marks).
Answer All Questions.

3. a) i. What do you understand about the term matter?

.....

.....

.....

ii. Matters are placed into four categories. Use vivid examples to justify this point

.....

.....

.....

b). In science everything is called matter. By using two points, explain the criterion for a thing to be called matter

.....

.....

.....

.....

.....

4. Physics is of importance because it explains and answer questions about different phenomena. Explain why it is also important in; -

a). Transportation

.....

.....

.....

b). Engineering and Constructions

.....

.....

.....

c). Entertainment

.....

.....

.....

c). Technology and Communication

.....

.....

.....

5. Students at Kinunuwe Secondary were investigating how the height of a pendulum bob string affects the time taken by a pendulum bob to complete 20 oscillations. They keep on changing height of the string to record the time period taken by a pendulum bob to finish the same number of oscillations.

a). List all the apparatus to be used in their experiment.

.....

.....

.....

.....

b). List all variables and their type shown on this investigation

.....

.....

.....

c). Identify the problem on this investigation

.....

.....

d). Formulate the hypothesis of this problem

.....

.....

.....

e).What will you do when the hypothesis does not match the conclusion?

.....

.....

.....

6. a) i. Explain the theory of gravity

.....

.....

ii. Suggest the name of the force of attraction described on this theory

.....

b) By using three (3) evidences convince your fellow form one students that the theory of gravity is very important on our daily life.

.....

.....

.....

.....

7. Mr. MDABHE is an engineer entrusted to level the football ground pitch of Morias Secondary school. He decided to use tape measure to determine the measurements of the ground before leveling it.

a). What is the meaning of the word measurement used in this scenario

.....

.....

.....

b). Why Mr. MDABHE decided to use tape measure and not a metre ruler in his measurements

.....

.....

.....

c). The determined length of a football ground was 1000 Centimetre convert it into Metre

.....

.....

.....

d). From Mr. MDABHE'S scenario of measurement, suggest four things that can lead to an error

.....

.....

.....

8. a) i. What does the word physical quantity mean?

.....

.....

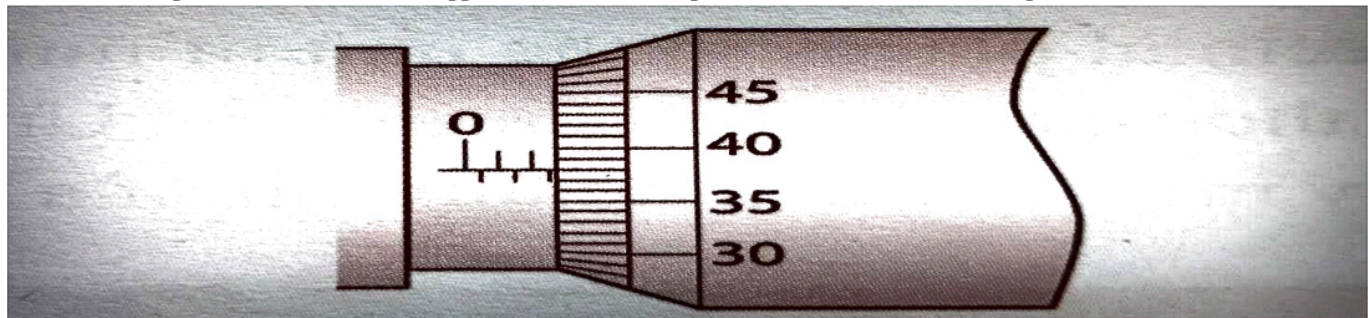

ii. As a scientist suggest the best three instruments with good accuracy in determining length of small objects.

.....

.....

.....

b). Read the diagram below careful and suggest the correct reading of this Micrometer Screw Gauge

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

a). As a supervisor help the constructor to fill the table below of fundamental physical quantities on the spaces which are not filled. (05 Marks)

Quantity to be Measured	Unit symbol	SI Unit
Length		Metre
Mass	kg	
Electric Current	A	
.....	cd	Candela
Temperature		Kelvin

.....

10. As a chairman in a meeting conducted at Mlela village aiming to discuss about social development. With vivid examples, try to convince the villagers that Physics have the huge part to play on contributing to the development of modern society they need. Use four points.

[illegible]
