SECTION A:(15 MARKS)

1. Choose the correct answer and write the correct letter in a box provided

i). Biology is the study of:

- A. Matter
- B. Living things
- C. Energy
- D. Chemicals

ii). Which of the following is NOT a branch of biology?

- A. Botany
- B. Zoology
- C. Chemistry
- D. Microbiology

iii) A field of Biology that practices growing crops and rearing animals for food or money is known as

- A. Zoology
- B. Nutrition
- C. Agriculture
- D. Botany

iv) The increase in the number of cells that make up an organism is known as

- A. Numbers
- B. Excretion
- C) Growth and development
- D) Forestry

v). Which one is a living thing?

- A. Bacteria
- B. Water
- C. Stone
- D. Air

vi). The process of making a sensible guess is called:

- A. Observation
- B. Hypothesis
- C. Experiment
- D. Conclusion

vii). The microscope with magnifying power of 10x and if total magnification to observe red blood cell is 200x. Determine the objective lens magnification

- A. 190x
- B. 2000x
- C. 210x
- D. 20x

viii) Aneth is a form one student with a dream to be an expert of insect. What biological term can describe her in the future.

Student's index number:.....

- A. Microbiologist
- B. Mycologist
- C. Ecologist
- D. Entomologist

ix). You need to measure the height of a small plant. Which tool will you use

- A. Ruler
- B. Vernier caliper
- C. Tape measure
- D. Measuring cylinder

x). A doctor checks if a patient has a fever. Which tools should a doctor use

- A. Scale
- B. Thermometer
- C. Hygrometer
- D. Barometer

Answers

Questions	i	ii	iii	iv	v	vi	vii	viii	ix	x
Answers										

2.Match the uses of apparatuses in List A with the corresponding apparatuses in List B

List A	List B
(i) An apparatus used for heating substances in the laboratory (ii) An apparatus used for storing test tubes so that they do not roll or break (iii) An apparatus used for measuring volume of liquids (iv) An apparatus used to magnify specimen (v) An apparatus used for catching small flying organisms and other small animals	A. Aquarium B. Bunsen burner C. Measuring cylinder D. Microscope E. Spatula F. Test tube rack G. Filter funnel H. Test tube holder I. Scoop nets J. Sweep nets

List A	i	ii	iii	iv	V
List B					

SECTION B (70 MARKS)

3 a) In order to study science one needs to have three basic skills. Mention them.

i.

Student's index number:.....

- ii.
- iii.

b. The human body temperature is 36°C . Convert it into $^{\circ}\text{F}$

4. The apparatus or equipment you can use to perform each of the following biological activities

- a) Catch a frog from a pond in order to study its external features.....
- b) Collect insects and small animals from the school compound.....
- c) Estimate the number of small organisms per square meter.....
- d) Used to pick up small organisms without hurting them.....
- e) Used to lift small delicate specimens.....

5.a) Define the three (3) branches of Biology

- I.
- II.
- III.

b) Identify the field and branch of biology that you will use to solve the following problems

- i. Helping a person with broken leg.....
- ii. Protecting cattle from tsetse flies.....
- iii. Conserving village river from drying.....

6 a). What do you understand by the term biology laboratory.

.....
.....
.....

b). During biology practical lesson, Amina entered the laboratory while eating chocolate and chatting loudly with her friends. She started touching bottles and apparatus without asking the teacher. Another student began running across the room and accidentally dropped a glass beaker on the floor. Identify the laboratory rules should be followed by the students
