

**PRIME MINISTER'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT**

**SIMIYU REGION
BUSEGA DISTRICT COUNCIL**

**FORM ONE TERMINAL EXAMINATION
PHYSICS**

TIME 2:30 HRS

MAY 2026

INSTRUCTIONS

1. This examination consists of section **A, B and C** with **10** questions.
2. Answer all questions from all sections.
3. Read all instructions carefully from each section.
4. Unauthorized materials are not allowed in the examination room.

STUDENT'S FULL NAME

SECTION A (15 MARKS)

Answer all questions

1. For each of the items (i) – (x), choose the correct answer from the given alternative and write its letter in box provided.
 - i. The scientist who involves in study of matter in relation to energy is known as?
 - A. Physics
 - B. Physicist
 - C. Physiologist
 - D. Psychologist
 - ii. Which of the following best describe a variable?
 - A. A trend that shows an experimental relationship.
 - B. Something whose value can change over multiple measurements
 - C. A measure of how much a plot line changes along the y – axis
 - D. Something that remain constant over multiple measurement
 - iii. Which of the following instruments is most suitable for measuring the internal diameter of 100ml beaker?
 - A. Meter ruler
 - B. Vernier caliper
 - C. Measuring tape
 - D. External caliper
 - iv. The following are fundamental physical quantities in mechanics;
 - A. Length, temperature and time
 - B. Electric current and luminous flame
 - C. Length, weight and mass
 - D. Mass, length, temperature, luminous intensity, mount of substance and time
 - v. The mass of object is reduced if it's?
 - A. State is changed
 - B. Amount of matter is reduced
 - C. Volume is reduced
 - D. Surface is reduced
 - vi. Cuboid with length 3cm, width 4cm and height 3cm is made from wood. The actual volume of the cuboid is?
 - A. 12cm^3
 - B. 240ml
 - C. 36cm^3
 - D. 240cm^3
 - vii. To measure the length by using meter rule, wrong position of the eye leads to?

STUDENT'S FULL NAME

- A. Parallax error
 - B. Eye error
 - C. Zero error
 - D. Meter error
- viii. Which of the following best describes why the knowledge of physics is the father of all - natural science?
- A. Explains how energy possess from one object to another
 - B. Explains fundamental aspects of the universe
 - C. Explains the motion of the objects that can be seen by naked eyes
 - D. Explains how gravity works on earth
- ix. A anything which has got mass and occupies space is known as?
- A. Energy
 - B. Volume
 - C. Newton
 - D. Density
 - E. Matter
- x. Tuwenao is performing an experiment in the laboratory and require to transfer a specific volume of liquid. What apparatus would your advice Tuwenao to use?
- A. Density bottle
 - B. Pipette
 - C. Burette
 - D. Eureka can

ANSWERS

i.	ii	iii	iv.	v.	vi.	vii.	viii.	ix.	X

2. Match the items in LIST A which corresponds with the items in LIST B by writing its letter in the box provided.

LIST A	LIST B
i. The most fundamental science ii. Physikos iii. Experimental physics iv. Example of matter v. Is one of the branches of physics	A. Biology B. Stone C. Physics D. Chemistry E. Astronomy F. Greek word the mean natural G. Latin word that means natural H. Creates paratactical work. I. Creates theories which are tested.

ANSWERS

STUDENT'S FULL NAME

LIST A	i	ii	iii	iv	v
LIST B					

SECTION B (70 MARKS)

ANSWER ALL QUESTIONS FROM THIS SECTION.

3. (a) Some of students do not want to study physics because they think that physics is difficult subject and therefore, they do not find its importance. Explain to them the importance of studying physics in their day – to – day life (five points) 05 marks

- i. _____

- ii. _____

- iii. _____

- iv. _____

- v. _____

- (b) Distinguish between mass and weight. (Give five points per each) 05 marks

MASS	WEIGHT
i. _____ _____	i. _____ _____
ii. _____ _____	ii. _____ _____
iii. _____ _____	iii. _____ _____
iv. _____ _____	iv. _____ _____
v. _____ _____	v. _____ _____

STUDENT'S FULL NAME

—	
---	--

4. (a) Form one students were shouting in the laboratory producing a lot of noises. The physics teacher advised them not to make noise. This is one of the laboratory rules, list other physics laboratory rules (Five points) 05 marks.

- i. _____
- ii. _____
- iii. _____
- iv. _____
- v. _____

(b) The student is investigating how the height of a ramp affects the distance of a toy car travels. The student changes the height of the ramp and measures the distance of a car travels. Identify the types of variables. (05 marks)

- i. _____
- ii. _____
- iii. _____

5. (a) What is force? (02 marks)

(b) State the law of Archimedes' principle. 08 marks

6. (a) What is error? (02marks)

(b) Error usually arises due to several reasons, some of the errors are? (08 marks)

- i. _____
- ii. _____
- iii. _____
- iv. _____

7. (a) Distinguish between attraction force and repulsion force. (04 marks)

STUDENT'S FULL NAME

(b) Differentiate between vector quantities and scalar quantities. (06marks)

Vector quantities	Scalar quantities
i. _____	i. _____
ii. _____	ii. _____
iii. _____	iii. _____
iv. _____	iv. _____
v. _____	v. _____

8. (a) What was the volume of the irregular solid object when an irregular solid object was immersed in 78cm^3 of water, the water level rose to 105cm^3 ? (05 marks)

(b) Calculate the volume of a rectangular block of side 23cm, 9cm and 8cm. (05marks)

9. (a) A fixed mass of the rocket moves from the earth to planet **X**. if it weighs 10,000N on the earth and 300N on planet **X**, determine the acceleration due to gravity on planet **X** (05 marks)

STUDENT'S FULL NAME

(b) Mention five (5) properties of gravitational force.

(05 marks)

- i. _____
- ii. _____
- _____
- iii. _____
- _____
- iv. _____
- _____
- v. _____
- _____

SECTION C 15 MARKS

Answer all questions from this section.

10. (a) State the following laws and principles as applied in physics. (05marks)

i. Law of floatation.

ii. Pascal's principle. (05marks)

(b) Briefly explain five (5) branches of Physics. (05marks)

- i. _____
- _____

- ii. _____
- _____

STUDENT'S FULL NAME

iii.

iv.

v.
